Public School Services

The New England Center for Children[®] (NECC[®]) has been educating children with autism using the principles of Applied Behavior Analysis (ABA) for 35 years. Our public school services are designed to bring NECC's research and experience to your students. We collaborate with districts to build educators' skills and help meet your team, classroom, school or district goals.

Partner Program Classrooms

Provide High-Quality Intensive ABA Services in Your District!

- Endorsed by public schools and families
- Prevents out of district placements and associated costs
- High rates of student success and parent satisfaction
